EXPERIENCE

FRONTEND DEVELOPER (JR. SOFTWARE DEVELOPER)

Augray Pvt. Ltd. Chennai - 2022 - Present

- Developed and maintained 12+ responsive web applications using React.js, JavaScript, HTML, and CSS.
- Implemented mobile-first UI designs, ensuring 100% cross-browser compatibility across major browsers and devices.
- Built reusable and modular React components, improving development efficiency and long-term scalability.
- Collaborated with backend and UI/UX teams to deliver pixel-perfect designs and seamless API integrations.
- Developed CMS-based web applications for enterprise clients including Ashok Leyland, Triveni, and REL.
- Contributed to a government WebAR project (“Selfie with CM”), enhancing interactive and user-engaging experiences.
- Played a key role in delivering the OneXR platform for AR/VR project showcases.

PROJECTS

OneXR Website - Live

- Built a responsive and visually rich platform to showcase XR/AR/VR projects using React.js and Bootstrap.

OneXR Showroom Website - Live

- Developed an interactive showroom website focusing on UI performance and responsiveness.

Government WebAR Project – "Selfie with CM"

- Contributed to a WebAR-based interactive application with a strong focus on responsive layout and optimized performance.

PREVIOUS EXPERIENCE

Developer in GIS (Lidar) - 2019 - 2021

- Analyzed and processed LiDAR data according to project specifications.
- Performed data segregation and validation to ensure accuracy and compliance with requirements.
